

Name: _____ PD. _____

Date: _____

Mitosis Flip Book

Directions: In each of the boxes, draw what happens during that phase of mitosis. Be sure to include: each of the changes that occurs during the phase (refer to notes), a description what is happening, and the correct number of chromosomes in the drawing. **You begin with 2 chromatids.** Include color in your book. Cut out the squares, staple them together in the correct order (please staple on the lines on the front page).

Mitosis Flip Book By:

Name: _____

Interphase

Prophase

Metaphase

Anaphase

Telophase

Use these extra boxes if you need to show any extra movement of chromosomes between the phases.
